CA Class II UIC December letter(MD).docx

Hi Jane,

See attached. I stayed away from wordsmithing, just a few comments on strategy or technical aspects. I am free tomorrow afternoon if you want to schedule a meeting.

This shows track changes (in case you want to see what I did to your previous work), but you can review easily by checking no markup. No doubt this can be further improved, but I am long overdue in getting you something. I did add a section on New Wells, since that's a point of tension, incorporating some of the conditions we have talked about. I'm not sure how the response to our review of the current plan, that ORC led, will fit with that section and this letter.

I'll look at proposing a time we can talk early afternoon tomorrow, after you've hopefully had a chance to look at this together with what ORC put together and may be in email already, to talk briefly about the overall content/format. You can provide specific edits before or after. Thanks everyone.

Jane Diamond

Water Director, EPA Region 9
